Independent Auditors' Report

To The Shareholders of

Navana CNG Limited and its Subsidiaries

Report on the Audit of the Financial Statements

Opinion

We have audited the Consolidated financial statements of **Navana CNG Limited** (the Company), which comprise the Consolidated Statement of Financial Position as at June 30, 2025; Consolidated Statement of Profit or Loss and Other Comprehensive Income; Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the year then ended and notes to the financial statements including a summary of significant accounting policies and other explanatory information disclosed in notes 1 to 60 and Annexure- A, B & C.

In our opinion, the accompanying Consolidated financial statements of the Company as at June 30, 2025, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and other applicable laws and regulations.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion

Emphasis of Matter

As per BSEC notification no. BSEC/CMRRCD/2021-391/20/Admin/121, Dated: 01 June 2021, any cash or stock dividend or right share are laying unclaimed or undistributed or un-allotted for a period of 3 (three) years or more, shall be transferred to the Capital market Stabilization Fund (CMSF). But the entity didn't transfer unclaimed Dividend amounting Tk. 37,193,397 to Capital Market Stabilization Fund (CMSF) which is carry forwarded more than 3 years.

Our key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements for the year ended on June 30, 2025. These matters were addressed in the context of the audit of the financial statements as a whole and in forming the auditors' opinion thereon and we do not provide a separate opinion on these matters.

In addition to the matter described in the basis for opinion section each matter mentioned below our description of how our audit addressed the matter is provided in the context.

We have fulfilled the responsibilities described in the auditors' responsibilities for the audit of the financial statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatements of our financial statements, the results of our audit procedures, including the procedures performed to address the matters below;

Revenue Recognition and Account Receivables	How our audit addressed the key audit matters
<p>The company has reported a revenue of Taka 4,480,592,390 for the year ended 30th June, 2025.</p> <p>Revenue Recognition is recognized in the Statement of Profit or Loss and Other Comprehensive Income of the company. Accounts Receivables recognized on the statements of financial position for the year is Tk. 2,673,450,076 and for the prior year is Tk. 2,119,753,734.</p> <p>Following the application of the revenue recognition standard (IFRS 15, Revenue from Contracts with Customers), the Company adopted its accounting policies.</p> <p>Under IFRS 15 revenue is recognized when a performance obligation is satisfied by transferring control over a promised good or service to a customer.</p> <p>Goods are considered as transferred when (or as) the customer obtains control of that goods. Revenue from sale of goods is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates and Value Added Tax (VAT).</p> <p>The sales of the company are derived from a large number of CNG stations located over the country with relatively small amount of transactions. As a result, to obtain sufficient audit evidence, high magnitude of audit work and resource are required.</p> <p>We identified revenue recognition as a key audit matter because revenue is one of the key performance indicators of the Company and therefore there is an inherent risk of manipulation of the timing of recognition of revenue by management to meet specific targets or expectations.</p> <p>We focused on the proper cut-off of sales to the Company's customers due to the fact that the documents of confirmation of dispatch of goods were provided by numerous transporting agencies based on different locations. There is a risk of differences between the timing of invoicing of products and the dispatch of the products to the company's CNG stations. Accordingly, there could be potential misstatements that these revenue transactions are not recognized in the</p>	<p>Our procedures included obtaining an understanding of management's revenue recognition process, we tested a sample of transactions to verify whether the revenue was accounted for in accordance with the revenue accounting policy as disclosed in note 3.06 and 29 of the financial statements. In addition, we assessed whether the disclosed revenue accounting policy was in accordance with relevant accounting standards.</p> <p>For the revenue recognized throughout the year, we tested selected key controls, including results reviews by management, for their operating effectiveness and performed procedures to gain sufficient audit evidence on the accuracy of the accounting for customer contracts and related financial statement captions.</p> <p>With regard to the implementation of IFRS 15 we verified management's conclusion on assessing different types of contracts and the accuracy of the revised accounting policies in light of the industry specific circumstances and our understanding of the business. We tested the appropriateness of the accounting treatment on a sample basis. In addition, we verified the accuracy of IFRS 15 related disclosures.</p> <p>These procedures included reading significant new contracts to understand the terms and conditions and their impact on revenue recognition. We performed enquiries with management to understand their risk assessments and inspected meeting minutes to identify relevant changes in their assessments and estimates.</p> <p>Our audit approach was a combination of test of internal controls and substantive procedures which included the following:</p> <ul style="list-style-type: none"> * Evaluated the design of internal controls relating to recording of efforts incurred and estimation of efforts required to complete the performance obligations. * We conducted substantive testing of revenue recorded over the year using sampling techniques by examining the relevant supporting documents including sales invoices and depot wise sales bank reconciliation report, bank statement and also, we confirmed selected customers' receivable balances at the balance sheet date, selected on a sample basis by considering the amount outstanding with those customers.

<p>proper reporting periods.</p> <p>See note no. 3.06 and 29.00 to the financial statements</p>	
<p>Key Audit Matters</p>	<p>How our audit addressed the key audit matters</p> <ul style="list-style-type: none">* We specifically put emphasis on those transactions occurring close before or after the balance sheet date to obtain sufficient evidence over the accuracy of cut-off.* We tested the completeness of journal entries compared to financial statements; as well as if there any exception existed that the debit accounts of sales recognition were not related to cash and bank, trade receivable or advances from customers.* Finally assessed the appropriateness and presentation of disclosures against relevant accounting standards.
<p>Valuation of Inventory</p> <p>The Company had inventory of Taka 3,467,926,778 at 30th June, 2025 held in different depot and warehouses.</p> <p>Inventories consisting of raw materials, working process, finished goods, spare parts, fuel and stock in transit are valued at lower of cost and net realizable value. Cost of inventories include expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.</p> <p>Cost of inventories is determined by using the weighted average cost formula. Where necessary, allowance is provided for damaged, obsolete and slow-moving items to adjust the carrying amount of inventories to the lower of cost and net realizable value.</p> <p>Net realizable value is based on estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated</p>	<p>How our audit addressed the key audit matters</p> <p>We tested the appropriateness of management's assumptions applied in calculating the value of the inventory provisions by:</p> <ul style="list-style-type: none">◆ evaluating the design and implementation of key inventory controls operating across the company, including those at a sample of, factory production house, warehouse, and sales depots;◆ evaluating internal controls to monitor or keep track of Inventory Movement;◆ attending inventory count on 30th June, 2025 and reconciling the count results to the inventory listing to test the completeness of data;◆ comparing the net realizable value, obtained through a detailed review of sales subsequent to the year-end, to the cost price of a sample of inventories;◆ reviewing the historical accuracy of inventory provisioning, and the level of inventory write-offs during the year;

<p>costs necessary to make the sale.</p> <p>Moreover, the process of estimating provision for inventories is judgmental and complex. Due to high level of judgment involved and use of some manual process in estimating the provision and net realisable value of inventories, we considered this to be a key audit matter.</p> <p>See note no. 3.07 and 11.00 to the financial statements.</p>	<ul style="list-style-type: none"> ◆ challenging the completeness of inventory provisions through assessing actual and forecast sales of inventory lines to assess whether provisions for slow moving/obsolete stock are valid and complete; ◆ evaluating the correctness of the batch wise costing of final products; ◆ evaluating the correctness of the valuation of raw materials and packing material as per weighted average method;
<p>Current Tax Provisioning</p> <p>Current Tax provision amounting to Tk. 60,328,085</p> <p>At the year end the company reported total income tax expense (Current Tax) of BDT 60,328,085 the calculation of the tax expense is a complex process that involves subjective judgments and uncertainties and require specific knowledge and competencies.</p> <p>We have determined this to be a key audit matter, due to the complexity in income tax provisioning.</p> <p>See note no. 3.14(a) and 34.01 to the Financial Statements.</p>	<p>How our audit addressed the key audit matters</p> <p>Our audit procedure in this area included, among others:</p> <p>Use of own tax specialist to assess the company's tax computation. Our tax specialists were also taking into account the company's tax position and our knowledge and experience of the application of relevant tax legislation.</p> <p>To analysis and challenge the assumption used to determine tax provision based on our knowledge and experience of the application of the local legislation.</p> <p>Evaluating the adequacy of the financial statement disclosure, including disclosure of key assumption judgments and sensitive related to tax.</p>
<p>Measurement of Deferred Tax Assets</p> <p>The Company reported net deferred tax assets totalling Tk. 674,232,466 as at 30th June, 2025. Significant judgement is required in relation to deferred tax liability as their liability is dependent on forecasts of future profitability over a number of years.</p> <p>See note no. 3.14(b) and 9.00 to the financial statements.</p>	<p>How our audit addressed the key audit matters</p> <p>We obtained an understanding, evaluated the design and tested the operational effectiveness of the Company's key controls over the recognition and measurement of Deferred Tax Assets and Liabilities and the assumptions used in estimating the future taxable expense of the company.</p> <p>We also assessed the completeness and accuracy of the data used for the estimations of future taxable expense/income.</p> <p>We evaluated the reasonableness of key assumptions, timing of reversal of temporary differences and expiration of tax loss carry forwards, recognition and measurement of Deferred Tax Liability.</p> <p>We assessed the adequacy of the company's disclosures setting out the basis of deferred tax liability balances and the level of estimation involved.</p>

We also assisted in evaluating the tax implications, the reasonableness of estimates and calculations determined by management.

Finally assessed the appropriateness and presentation of disclosures against IAS 12 Income Tax.

Other Information

Management is responsible for the other information. The other information comprises all of the information in the Annual report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRSs), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error,

as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 1987 and relevant notifications issues by Bangladesh Securities and Exchange Commission, we also report that:

- We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- In our opinion, proper books of accounts, as records and other statutory books as required by law have been kept by the Company so far as it appeared from our examination of these books;
- The statements of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of accounts and returns; and
- The expenditure incurred was for the purposes of the Company's business.

2.04 Basis of Measurement

The financial statements have been prepared based on the accrual basis of accounting and prepare under the historical cost convention except for the revaluation of certain non-current assets which are stated either at revaluated amount or fair market value as explained in the accompanying notes.

2.05 Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition up to the effective date of disposal, as appropriate.

Total comprehensive income of subsidiaries is attributed to the owners of the company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the group.

Non-Controlling Interests are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognized in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

The consolidated financial statements comprises consolidated statement of financial position, consolidated statement of comprehensive income, consolidated statement of cash flows, consolidated statement of changes in equity and consolidated notes and explanatory materials covering accounting policies.

The consolidated financial statements have been prepared in accordance with IFRS 10: consolidated financial statements.

2.06 Accrual basis of Accounting

The Company prepares its consolidated financial statements, except for cash flow information, using the accrual basis of accounting. Since the accrual basis of accounting is used, the company recognizes items as assets, liabilities, equity, income and expenses (the elements of financial statements) when they satisfy the definitions and recognition criteria for those elements in the IFRS conceptual Framework.

2.07 Functional and Presentation Currency

Functional and presentation currency items included in these financial statements are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). These financial statements are presented in Bangladesh Taka ("BDT") which is also the functional currency of the company. The amounts in these financial statements have been rounded off to the nearest BDT except otherwise indicated.

2.08 Key Accounting Estimates and Judgments in Applying Accounting Policies

The preparation of consolidated financial statements in conformity with International Financial Reporting Standards including IAS's requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and for contingent assets and liabilities that require disclosure during and at the date of the financial statements.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions of accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected as required by IAS 8: "Accounting Policies, Changes in Accounting Estimates and Errors".

In particular, the key areas of estimation, uncertainly and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements include accrued expenses, inventory valuation and other payables.

2.09 Materiality, Aggregation and Off Setting

Each material item as considered by management significant has been displayed separately in the financial statements. No amount has been set off unless the Company has legal right to set off the amounts and intends to settle on net basis. Income and expenses are presented on a net basis only when permitted by the relevant accounting standards. The values of assets or liabilities as shown in the statement of financial position are not off-set by way of deduction from another liability or asset unless there exist a legal right, therefore no such incident existed during the year.

2.10 Going Concern Assumption

The financial statements are prepared on the basis of going concern assumption. As per management assessment there is no material uncertainties related to events or conditions which may cast significant doubt upon the Company's ability to continue as a going concern.

2.11 Comparative Information

Comparative information has been disclosed in respect of 2023-2024 in accordance with IAS-1 "Presentation of Financial Statements" for all numeric information in the financial statements and also the narrative and descriptive information where it is relevant for

understanding of the current periods of financial statements. Prior year figure has been re-arranged wherever considered necessary to ensure comparability with the current period.

2.12 Changes in Accounting Policies

There have been no changes in accounting policies. All policies were consistent with the practices of the previous years.

2.13 Responsibility for Preparation and Presentation of Financial Statements

The Board of Directors is responsible for the preparation and presentation of the financial statements as per requirements of Companies Act, 1994.

2.14 Reporting Period

The reporting period of the Company covers one year from 1st day of July, 2024 to 30th June, 2025.

2.15 Approval of Financial Statements

The financial statements have been approved by the Board of Directors on the 27th day of October, 2025.

3.00 Significant Accounting Principles and Policies selected and applied for significant transactions and events:

For significant transactions and events that have material effect, the Company's Directors selected and applied significant accounting principles and policies within the framework of IAS1: Presentation of Financial Statements in preparation and presentation of financial statements that have been consistently applied throughout the year and were also consistent with those use in earlier years.

For proper understanding of the financial statements, accounting policies set out below in one place as prescribed by the IAS1 : Presentation of Financial Statements:

Assets and Basis of their Valuation**3.01 Property, Plant and Equipment****3.01.1 Recognition and Measurements**

These are capitalized at cost of acquisition and subsequently stated at cost less accumulated depreciation in compliance with the benchmark treatment of IAS 16 "Property, Plant and Equipment". The cost of acquisition of an asset comprises its purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use inclusive of inward freight, duties and non-refundable taxes.

In a situation where it can clearly be demonstrated that expenditure has resulted in an increase in future economic benefit expected to be obtained from the use of the fixed assets, the expenditure is capitalized as an additional cost of the assets.

Cost also includes initial estimate of the costs of dismantling, removing the item and restoring this site (generally called asset retirement obligation) are recognized and measured in accordance with IAS 37: Provision, Contingent Liabilities and Contingent Assets.

On retirement or otherwise disposal of fixed assets, the cost and accumulated depreciation are eliminated and any gain or loss on such disposal is reflected in the statement of comprehensive income which is determined with reference to the net book value of assets and the net sales proceeds.

3.01.2 Maintenance Activities

Expenditure incurred after the assets have been put into operation, such as repairs & maintenance is normally charged off as revenue expenditure in the year in which it is incurred.

3.01.3 Subsequent Cost

The Cost of replacing part of an item of property, plant & equipment is recognized in the carrying amount of the item if it is possible that the future economic benefits embodied within the part will flow to the company and its cost measured reliably. The cost of the day to day servicing of property and equipment are recognized in the Statement of Profit or Loss and Other Comprehensive Income as repairs and maintenance where it is incurred.

3.01.4 Depreciation on Tangible Fixed Assets

As required in Paragraph 43 of IAS-16 Property and Equipment, depreciation in respect of all fixed assets is provided to amortize the cost of the assets after commissioning, over their expected useful economic lives in accordance with the provision of IAS 16 "Property, Plant and Equipment".

Depreciation on all other fixed assets except land and land development is computed using diminishing balance method in amount sufficient to write-off depreciable assets over their estimated useful life. Depreciation has been charged on additions and when it is used. Expenditure for maintenance and repairs are expenses; major replacements, renewals and betterment are capitalized.

The cost and accumulated depreciation of depreciable assets retired or otherwise disposed off are eliminated from the assets and accumulated depreciation and any gain or loss on such disposal is reflected in the Statement of Profit or Loss Account for the year ended. The annual depreciation rates applicable to the principal categories are:

Category of Fixed Assets	Rate of Depreciation
Land & Land Development	--
Building & Shed	10%
Plant & Machinery	10%
Cylinder	10%
Tools & Equipment	5%
Furniture & Fixtures	10%
Electric Equipment	10%
Office Equipment	10%
Vehicles	10%

3.01.5 Impairment

The carrying amounts of property, plant and equipment are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated to determine the extent of the impairment loss, if any, impairment loss is recorded on judgmental basis, for which provision may differ in the future years based on the actual experience.

3.01.6 Disposal of Property, Plant and Equipment

An item of Property, Plant and Equipment is removed from the statement of financial position when it is disposed off or when no future economic benefits are expected from its use or disposal. The gain or loss on the disposal of an item of Property, Plant and Equipment is included in the statement of income of the period in which the de-recognition occurs.

3.01.7 Capital Work-in-Progress

Property, Plant and Equipment under construction / acquisition have been accounted for as capital work-in-progress until construction/acquisition is completed and measured at cost.

3.01.8 Intangible Assets

(i) Recognition and Measurement

Intangible assets are measured at cost less accumulated amortization and accumulated impairment loss, if any. Intangible asset is recognized when all the conditions for recognition as per IAS 38: Intangible assets are met. The cost of the intangible assets comprises its purchase price, import duties and non-refundable taxes and any directly attributable cost of preparing the asset for its intended use.

(ii) Subsequent Expenditure

Subsequent expenditure is capitalized only when it is probable that the future economic benefits embodied within the part will flow to the company and its cost can be measured reliably. All other expenditures are recognized in profit or loss, when incurred.

(iii) Amortization

Amortization is recognized in profit or loss on a diminishing balance method over the estimated useful lives of the intangible assets, from the month they are available for use. Software is amortized @ 10%.

3.02 Investment in FDR and Shares

Investment in shares and FDR's is stated at its market price and cost price respectively. The statement of profit or loss reflects the income on account of interest on investment in FDR and unrealized gain or loss from investment in shares are recognized as other comprehensive income.

It may be mentioned here that a fluctuation reserve / fair value reserve has been created in order to equalize the price go down below the cost price of the shares and during the year under audit unrealised gain / (loss) on investment in shares for price go down below the cost price of the shares has been charged directly to statement of other comprehensive income.

3.03 Recognition of Investment in Subsidiary in a separate Financial Statement

The investments in subsidiary is being accounted for using equity method in the company's separate financial statements as directed by para 10 (c) of IAS 27 separate Financial Statements, "under the equity method, on initial recognition the investment in an associate or a joint venture is recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition.

The investor's share of the investee's profit or loss is recognized in the investor's profit or loss. Distributions received from an investee reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the investor's proportionate interest in the investee arising from changes in the investee's other comprehensive income."

3.04 Sundry Debtors (Including Advance, Deposits and Pre-Payments)

These are carried at original invoice amounts, which represent net realizable value.

3.05 Other Current Assets

Other current assets have a value on realization in the ordinary course of the company's business which is at least equal to the amount at which they are stated in the Statement of Financial Position.

3.06 Revenue Recognition

In compliance with the requirements of IFRS 15 "Revenue" is recognized to the extent that it is probable that the economic benefits will flow to the entity and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable. Revenue recognized when the policies are made.

The Company recognizes as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principle, this standard establishes a five-step model as follows:

- * Identify the contract with a customer;
- * Identify the performance obligations in the contract;
- * Determine the transaction price;
- * Allocate the transaction price to the performance obligations in the contract; and
- * Recognize revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the company recognizes revenue when (or as) the Company satisfies a performance obligation by transferring a promised goods to a customer. Goods is considered as transferred when (or as) the customer obtains control of that goods. Revenue from sale of goods is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates and Value Added Tax (VAT).

(a) Petrol and Diesel Vehicle Conversion Services

Revenue on petrol and diesel vehicle conversion services is recognized, net of VAT where applicable upon the completion of the conversion of vehicles to run on either the Bi-Fuel system or CNG Fuel System and the delivery of the converted vehicles to the vehicle owners.

(b) Sale of CNG

Revenue from sale of CNG is recognized upon the transfer of significant risk and rewards of ownership of the goods to the customer. Revenue is not recognized to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

(c) Dividend

Dividend income is recognized when the company's right to receive payment is established.

(d) Other Revenues

Other revenues are recognized when services are rendered and bank interests are earned.

3.07 Inventories

In compliance with the requirement of IAS 2 "Inventories", inventories are stated at the lower of cost and net realizable value.

Inventories consisting of raw materials, work in progress, finished goods, spare parts, fuel and stock in transit are valued at a lower of cost and net realized value. Cost of inventories include expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Cost of inventories is determined by using the following basis:

Raw materials:

Purchase costs on a weighted average basis;

Finished goods and work-in-progress:

Costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity;

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. Provision is made if necessary, for obsolete and slow-moving items.

3.08 Foreign Currency Transactions

Transaction in Foreign Currencies are measured in the functional currency of the company and are recorded on initial recognition in the functional currency at the spot exchange rate ruling at the transaction date.

At the end of each reporting period in compliance with the provision of IAS 21: The Effect of Changes in Foreign Exchange Rates-

- (a) Foreign currency monetary items are translated using the closing rate;
- (b) Non-monetary items that are measured in terms of historical costs in a foreign currency are translated using the exchange rate at the date of the transaction;
- (c) Non-monetary items that are measured at fair value in a foreign currency is translated using the exchange rate at the date when the fair value is determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rate different from those at which they were translated on initial recognition during the period or in previous financial statements is recognized in profit or loss in the period in which they arise.

Amount in FCAD ERQ Account and any other foreign currency balance have been translated into taka at the reporting date at the exchange rate prevailing on that date and gain/(loss) have been accounted for as other income / (loss) in statement of profit or loss and comprehensive income.

3.09 Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial Assets

The company initially recognises receivables on the date that they are originated. All other financial assets are recognized initially on the date at which the company becomes a party to the contractual provisions of the transaction.

The company derecognises a financial asset when the contractual rights or probabilities of receiving the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

Financial assets include advance, deposits & prepayments, accounts receivable, investment, investment in subsidiary and cash and cash equivalents.

(i) Advance, Deposits & Prepayments

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deductions, adjustments or charges to other account heads. Deposits are measured at payment value. Prepayments are initially measured at cost. After initial recognition, prepayments are carried at cost less charges to profit & loss account.

(ii) Accounts Receivables

Trade receivables represent the amounts due from customers for delivering goods or rendering services. Trade and other receivables are initially recognized at cost which is the fair value of the consideration given in return. After initial recognition these are carried at cost less impairment losses due to non-collectability of any amount so recognized.

(iii) Investment

Investment comprises of fixed deposit maturity of more than three months which are available for use by the company without any restriction. The company has positive intent and ability to hold investment in fixed deposit receipts-FDRs investment to maturity, and such financial assets are classified as held to maturity. These assets are initially recognized at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortized cost using effective interest method.

(iv) Investment in Subsidiary

Investment in subsidiary represents investment in the equity of Navana Engineering Limited, Navana Welding Electrode Limited and Navana LPG Limited.

(v) Cash and Cash Equivalents

Cash and cash equivalents comprises cash in hand, cash at bank and fixed deposits having maturity of less than three months which are available for use by the company without any restriction.

(b) Financial Liabilities

A financial liability is recognized when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the company of resources embodying economic benefits. The company initially recognises financial liabilities on the transaction date at which the company becomes a party to the contractual provisions of the liability.

The company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

Financial liabilities include trade and other payables, and other non-current liabilities.

IFRS 9 sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments: Recognition and Measurement.

The details of new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below.

(i) Interest bearing borrowings

Principal amounts of the loans and borrowings are stated at their amortized amount. Borrowings repayable after twelve months from the date of statement of financial position are classified as non-current liabilities whereas the portion of borrowings repayable within twelve months from the date of statement of financial position, unpaid interest and other charges are classified as current liabilities.

(ii) Payables and Accruals

Payables and accruals are recognized at the amount payable for settlement in respect of goods and services received by the Company.

3.10 Equity Instruments

Ordinary shares are classified as equity. Investment costs directly attributable to the issue of ordinary shares are recognized as expenses. Paid up share capital represents total amount contributed by the shareholders and bonus shares issued by the Company.

3.11 Impairment**(i) Non-derivative Financial Assets**

Financial assets not classified as at fair value through profit or loss, are assessed at each reporting date to determine whether there is objective evidence of impairment. A financial asset is impaired if objective evidence indicate that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired includes:

- (a) default or delinquency by a debtor;
- (b) restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- (c) indications that a debtor or issuer will enter bankruptcy;
- (d) adverse changes in the payment status of borrowers or issuers;
- (e) observable data indicating that there is measurable decrease in expected cash flows from a Company of financial assets.

(ii) Financial Assets measured at amortized cost

The Company considers evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets are individually assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that has been incurred but not yet individually identified. Assets that are not individually significant are collectively assessed for impairment. Collective assessment is carried out by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Company uses historical information on the timing of recoveries and the amount of loss incurred, and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss is calculated as the difference between an asset's carrying amount and the present

(iii) Non-Financial Assets

The carrying amounts of the Company's non-financial assets (other than biological asset, investment property, inventories and deferred tax assets) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of impairment loss (if any). Where it is not possible to determine the recoverable amount of an individual asset, the company estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs. An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

Impairment losses are recognised in profit or loss. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

3.12 Derivatives

The company is not a party to any derivative contract at the statement of financial position date, such as forward exchange contract, currency swap agreement or interest rate option contract to hedge currency exposure related to import of raw materials and others or principal and interest obligations of foreign currency loans.

3.13 Leases

IFRS 16 provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset as a low value. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemption for short-term leases and leases of low value items.

The Company applied IFRS 16 Lease for the first time on 1st July, 2019. The nature and effect of the changes as a result of adoption of this new accounting standard is described below.

A lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. Previously the company used to charge the consideration paid in its books as revenue expenses. IFRS 16 introduced a single, on balance sheet accounting model for leases. As a result, the Company, as a lessee, has recognized right of use assets representing its rights to use underlying assets and lease liabilities representing its obligation to make lease payments. The Company applied IFRS 16 on 1st January, 2019 for the existing lease contracts.

The Company has only office rent agreement, which is classified as operating leases, which under IFRS 16 are required to be recognized on the Company's statement of financial position. The nature and timing of expenses related to those leases has changed as IFRS 16 replaced the straight line operating lease expenses (as per IAS-17) with an amortization charge for the right of use assets and interest expense on lease liabilities.

The Company applied the practical expedient to the definition of a lease on transition. This means that it applied IFRS 16 to all contracts entered into before 1st January, 2019 and identified as leases in accordance with IAS 17 and IFRIC 4.

The Company's all contractual payments to the lessor contains only fixed amounts of lease payment and no variable lease payments are embedded with the lease payments. The rental agreements do not include any automatic renewals, nor do they include any guaranteed residual values of the underlying assets.

The Company recognizes right-of-use assets at the commencement date of the lease (i.e. date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term or a change in the in-substance fixed lease payments.

Subsequent Measurement:

The Lease Liability:

Upon initial recognition, the lease liability is being accounted for using amortised cost. Meaning that the initial liability is added by finance charge at company's incremental borrowing cost less subsequent rental payment on monthly basis.

Right to Use Assets:

The leased assets (Right to Use Asset) are depreciated over its useful life on monthly basis using straight line depreciation method.

3.14 Taxation

Income Tax expense comprises current and deferred taxes. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity in accordance with IAS 12: Income Tax.

(a) Current Tax:

Current Tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous periods. The tax rate used for the reporting period was 22.5% as a publicly traded company.

The company enjoyed the tax holiday up to April, 2009 and accordingly necessary provision has been made for tax holiday period.

(b) Deferred Tax:

Deferred income tax is provided using the deferred method on temporary differences. Deferred tax assets and liabilities are recognized for all temporary differences, except:

Where the deferred tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss;

In respect of temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled by the company and it is probable that the temporary differences will not reverse in the foreseeable future; and

In respect of deductible temporary differences and carry-forward of unused tax credits and unused tax losses, if it is not probable that taxable profit will be available against which the deductible temporary differences and carry forward of unused tax credits and unused tax losses can be utilized.

(c) Value Added Tax:

Revenues, expenses and assets are recognized net of the amount of Value Added Tax except:

Where the value added tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the value added tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and

Receivable and payables that are stated with the amount of value added tax included.

The net amount of value added tax recoverable from, or payable to, taxation authority is included as part of receivables or payables in the statement of financial position.

3.15 Proposed Dividend

The amount of proposed dividend has not been accounted for but disclosed in the notes to the accounts in accordance with the requirements of International Accounting Standard (IAS) 1: Presentation of Financial Statements. Also the proposed dividend is not considered as liability in accordance with the requirement of International Accounting Standard (IAS) 10: Events after the Reporting Period, because no obligation exists at the time of approval of accounts and recommendation of dividend by the Board of Directors.

3.16 Cost of Post-Employment Benefits

The company maintains a defined contribution plan for its eligible permanent employees. The eligibility is determined according to the terms and conditions set forth in the respective deeds. The Company does not have any defined benefit plans and therefore does not record any provisions or expenses in this regard.

The company has accounted for and disclosed employee benefits in compliance with the provision of IAS 19: Employee Benefits. The cost of employee benefits is charged off as revenue expenditure in the period to which the contributions relate. The company's employee benefits include the following:

(a) Short-Term Employee Benefits:

Short-term employee benefits include salaries, bonuses, overtime, holiday allowance, TA/DA, leave encashment, meals allowance, transaction, accommodation etc. obligation for such benefits are measured on an undiscounted basis and are expenses as the related service is provided.

(b) Contribution to Workers' Profit Participation and Welfare Funds:

This represents 5% of net profit before tax contributed by the company as per provisions of the Bangladesh Labour (amendment) Act, 2014 and is payable to Workers as defined in the said law.

(c) Insurance Scheme:

Employees of the company are covered under insurance schemes.

(d) Defined Contribution Plan (Provident Fund):

The company has a registered provident fund scheme (Defined Contribution Plan) for employees of the company eligible to be members of the fund in accordance with the rules of the provident fund constituted under an irrevocable trust. All permanent employees contribute 10% of their basic salary to the provident fund and the company also makes equal contribution.

The company recognizes contribution to defined contribution plan as an expense when an employee has rendered services in exchange for such contribution. The legal constructive obligation is limited to the amount it agrees to contribute to the fund.

(e) Defined Benefit Plan (Gratuity)

A defined benefit is a post-employment plan other than a defined contribution plan. The employee gratuity plan is considered as defined benefit plan as it meets the recognition criteria. The company's obligation is to provide the agreed benefits to current and former employees. The net defined benefit liability / (asset) in respect of a defined benefit plan is recognized in the statement of financial position.

Current service cost, past service cost and gain/loss on settlement and net interest on the net defined benefit liability/(asset) are recognized in profit or loss.

Service cost and gain/loss on settlement are classified as personnel expense and net interest on the net defined benefit liability (asset) is classified as financial expense.

The gratuity is calculated for all the employees prescribed by the rates as per labour Act, 2006 (as amended to 2013) for their service with the company.

3.17 Capitalization of Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds as per IAS 23: Borrowing Costs.

3.18 Accruals, Provisions and Contingencies

(a) Accruals

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amounts due to employees. Accruals are reported as part of trade and other payables.

(b) Provisions

A provision is recognised in the statement of financial position when the company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the reporting date. Where the company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

The expense relating to any provision is presented in the income statement net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. During the reporting year the company has made sufficient provisions where applicable.

(c) Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company; or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. At the reporting date the company does not have any contingent asset.

Contingent liabilities and assets are not recognized in the statement of financial position of the company.

3.19 Operating Segments

Basis for Segmentation

A business segment is a distinguishable component of an entity that is engaged in providing an individual product or service or a group of related products or services and that is subject to risk and returns that are different from those of other business segment. The company has two distinguishable operating segments vide conversion workshop and CNG station in case of Navana CNG Ltd. which are disclosed in **note 39**.

The following summary describes the operation of each reportable segment:

Reportable Segments	Operations
Conversion Workshop	The principle activities of the company are conversion of petrol and diesel driven vehicles to compressed natural gas (CNG) driven vehicles.
CNG & LPG Station	CNG re-fuelling stations and other related services.

These two reportable segments are the strategic business units of the company and are managed separately based on the Company's management and internal structure. For each of the strategic business units, the management reviews internal management report on at least quarterly basis. Performance is measured based on segment profit from operation, as included in the internal management reports. Segment revenue and operating profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to their entities that operate within these industries.

A geographical segment is a distinguishable component of an entity that is engaged in providing products or services within a particular economic environment and that is subject to risks and return that different from those of components operating in other economic environments. Since the company has operating all its activities in the same economic environment geographical segment reporting is not required.

3.20 Cash and Cash Equivalents

For the purposes of the Statement of Financial Position and Cash Flows, cash in hand and bank balances represents cash and cash equivalents considering the *IAS 1 "Presentation of Financial Statements"* and *IAS 7 "Cash Flow Statement"* which provide, that cash and cash equivalents are readily convertible to known amounts of cash and are subject to an in significant risks of changes in value and are not restricted as to use.

3.21 Statement of Cash Flows

The Statement of Cash Flow has been prepared in accordance with the requirements *IAS 7 : Statement of Cash Flows*. The cash generated from operating activities has been reported using the Direct Method as prescribed by the Securities and Exchange Rules, 1987 and considering the provisions of *Paragraph 19 of IAS 7* which provided that "*Enterprises are Encouraged to Report Cash Flow From Operating Activities Using the Direct Method*".

3.22 Earnings per Share (EPS)

Earnings Per Share (EPS) are calculated in accordance with the International Accounting Standard *IAS-33 "Earnings Per Share"*.

Basic Earnings Per Share

Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary equity holders of the entity by the weighted average number of ordinary shares outstanding during the year. The Basic EPS of previous year has been restated to adjust the effect of bonus issue of shares during the year.

Diluted Earnings Per Share

For the purpose of calculating diluted earnings per shares, an entity adjusts profit or loss attributable to each ordinary equity holders of the entity, and weighted average number of shares outstanding, for the effects of all dilutive potential ordinary shares.

Diluted EPS is only calculated where the company has commitment to issue ordinary shares in future at reporting date. No such commitment is hold by company at reporting date.

3.23 Risk Exposure**Interest Rate Risk**

Interest rate risk is the risk that company faces due to unfavourable movements in the interest rates. Changes in the government's monetary policy, alongwith increased demand for loans/investments tend to increase the interest rates. Such rises in interest rates mostly affect companies having floating rate loans or companies investing in debt securities.

Management Perception

The management of the company prefers procuring the long term fund with minimum fixed interest rate and the short term fund with reasonable competitive rate. The company maintains low debt/equity ratio; and accordingly, adverse impact of interest rate fluctuation is insignificant.

Exchange Rate Risk

Exchange rate risk occurs due to changes in exchange rates. As the company imports materials and equipment from abroad and also earns revenue in foreign currency, unfavourable volatility or currency fluctuation may affect the profitability of the company. If exchange rate increases against local currency, opportunity arises for generating more profit.

Management Perception

The products of the company are sold mostly in local currency. Therefore, volatility of exchange rate will have no impact on profitability of the company.

Industry Risks

Industry risk refers to the risk of increased competition by entries of new competitors from foreign and domestic sources leading to lower prices, revenues, profit margin, and market share which could have an adverse impact on the business, financial condition and results of operation.

Management Perception

Management is optimistic about growth opportunity in CNG sector in Bangladesh.

Market Risk

Market risk refers to the risk of adverse market conditions affecting the sales and profitability of the company. Mostly, the risk arises from falling demand for the product or service which would harm the performance of the company. On the other hand, strong marketing and brand management would help the company increase their customer base.

Management Perception

Management is fully aware of the market risk, and act accordingly. Market for CNG sector in Bangladesh is growing at an exponential rate. Moreover, the company has a strong marketing and brand management to increase the customer base and customer loyalty.

Operational Risks

Non-availabilities of materials/equipment/services may affect the smooth operational activities of the company. On the other hand, the equipment may face operational and mechanical failures due to natural disasters, terrorist attacks, unforeseen events, lack of supervision and negligence, leading to severe accidents and losses.

Management Perception

The company perceives that allocation of its resources properly can reduce this risk factor to great extent. The company hedges such risks in costs and prices and also takes preventive measures therefore.

Liquidity Risk

Liquidity risk is defined as the risk that the company will not be able to settle or meet its obligations on time or at a reasonable price.

Management Perception

The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, management ensures that it has sufficient cash and cash equivalent to meet expected operational expenses, including the servicing of financial obligation through preparation of the cash forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

Labour Unrest Risk

Smooth production is dependent on good relationship with factory workers and their ability to provide high quality services. In the event of disagreement with workers the company may face adverse impact.

Management Perception

The management personnel both in head office and production premises maintains a good atmosphere at the working place and provides with all necessary facilities to the workers like healthy remuneration, employee leave entitlement, termination benefits and workers profit participation fund for its employees which reduces the risk of labour unrest.

3.24 Events after the Reporting Period

Events after the reporting period that provide additional information about the Company's position at the date of statement of financial position or those that indicate the going concern assumption is not appropriate are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes when material.

3.25 Related Party Disclosure

As per International Accounting Standard, IAS-24: 'Related Party Disclosures', parties are considered to be related if one of the parties has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Company carried out transactions in the ordinary course of business on an arm's length basis at commercial rates with its related parties. Related party disclosures have been given in **Note 41**.

3.26 General

- (a) All shares have been fully called and paid up;
- (b) There is no preference shares issued by the company;
- (c) The company has not incurred any expenditure in foreign currency against royalties and technical fees;
- (d) Auditors are paid only the statutory audit fees;
- (e) No foreign currency was remitted to the shareholders during the year under audit;
- (f) No money was spent by the company for compensating any member of the board for rendering special services;
- (g) No brokerage was paid against sales during the year under audit;

35.00 Consolidated Earnings per share (EPS)	Profit Attributable to shareholders	
	Number of ordinary shares	
Profit attributable to ordinary shareholders	7,266,751	6,971,662
Number of ordinary shares used to compute earnings per share	75,552,772	75,552,772
Earnings per share	0.10	0.09

Despite facing cost pressures and challenges in specific segments, the company has achieved a slight increase in consolidated earnings per share (EPS), rising by BDT 0.01 compared to the previous period. This modest improvement demonstrates the company's ability to manage external difficulties while maintaining profitability. It also reflects the initial effects of implementing cost control measures, strategic resource allocation, and initiatives focused on improving operational efficiency. This positive change in EPS reassures stakeholders about the organization's financial stability and its capacity to deliver consistent returns in a fluctuating economic environment.

36.00 Consolidated Net assets value per share (NAVPS)	Total Asset - Total Liabilities	
	Number of ordinary shares	
Net asset value	2,325,942,033	2,362,531,328
Number of ordinary shares used to compute NAVPS	75,552,772	75,552,772
Net assets value per share (NAVPS)	30.79	31.27

37.00 Consolidated Net operating cash flows per share (NOCFPS)	Net operating cash flow	
	Number of ordinary shares	
Net operating cash flows	6,924,047	90,519,936
Number of ordinary shares used to compute NOCFPS	75,552,772	75,552,772
Net operating cash flows per share	0.09	1.20

The company has experienced a modest decrease in net operating cash flow compared to the previous period. This decline reflects short-term pressure from rising input costs and collection issues faced by some subsidiaries. However, the group has managed to maintain healthy cash flow through targeted revenue efforts and disciplined financial management. This resilience highlights the strength of our core operations and provides a solid base for future growth.

The company has not disclosed the fair values for financial instruments such as accounts receivables, cash and cash equivalents, long term security deposit, short term loans and other non current liabilities because the carrying amounts are a reasonable approximation of fair value.

58.02 Financial Risk Management Framework

The Company's management has overall responsibility for the establishment and oversight of the company's risk management framework. The Company's Risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations. The Company has exposure to the following risks from its use of financial instruments:

58.02.1 Credit Risk, 58.02.2 Liquidity Risk 58.02.3 Market Risk.

This notes presents information about the company's exposure to each of the above risks, the company's objectives, policies and processes for measuring risk and the company's management of capital.

58.02.1 Credit Risk

Credit risk is the risk of a financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivable.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of customer, including the default risk of the industry and financial strength of the customer, as these factors may have an influence on credit risk. Geographically there is no concentration of credit risk.

The debtors management review committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the company's payment and delivery terms and conditions are offered. Credit limits are established for each customer, which represents the maximum outstanding amount of credit sale without requiring approval from the committee; these limits are reviewed as per guideline of Nava CNG Limited in each quarter. Customers that fail to meet the company's benchmark creditworthiness may transact with the company only on a cash / deposit scheme basis.

Management has a credit policy in place and the exposure to credit risk is monitoring on an ongoing basis. As at 30th June, 2025, substantial part of the receivables are as follows and subject to insignificant credit risk. Risk exposure from other financial assets, i.e. Cash at bank and other external receivables are also nominal.

i. Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting data was:

Particulars	Amount (Tk.) 30.06.2025	Amount (Tk.) 30.06.2024
Non-Derivative Financial Assets:		
Accounts Receivable	2,673,450,076	2,119,753,734
Others Receivables	194,363,458	194,875,944
Advance to Suppliers	589,475,994	460,025,578
Advance against Employees	18,179,122	13,483,009
Security Deposits	1,317,939	1,317,939
Other advances	1,344,113,987	1,326,434,322
FDR	155,565,544	140,652,753
Cash at bank	40,796,461	186,949,562
Cash in Hand	6,071,310	5,925,122
Total	5,023,333,891	4,449,417,963

At 30th June, 2025 the maximum exposure to credit risk for trade and other receivables by geographic regions was as follows:

Particulars	Amount (Tk.)	Amount (Tk.)
	30.06.2025	30.06.2024
Domestic	2,867,813,534	2,314,629,678
Foreign Receivable	-	-
Total	2,867,813,534	2,314,629,678

The ageing of Trade Receivable at the reporting date is as follows:

0 to 1 Months	62,024,410	50,049,712
More than 1 Months to 3 Months	510,253,464	401,962,631
More than 3 Months to 6 Months	611,051,052	485,816,878
More than 6 Months to 9 Months	752,096,941	592,346,210
More than 9 Months to 12 Months	475,676,781	374,228,368
Above 12 Months	272,647,429	215,349,935
	2,683,750,076	2,119,753,734

To mitigate the credit risk against accounts receivables, the company has a system of specific credit line period to the customers. This outstanding period and amount are regularly monitored. The company endeavors to cover the credit risks on all other receivables, where possible, by restricting credit facility and stringent monitoring.

58.02.2 Liquidity Risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity (cash and cash equivalents) is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepaid based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity / fund to make the expected payment within due date.

Exposure to Liquidity Risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements. The carrying amount of financial liabilities represent the maximum exposure to liquidity risk. The maximum exposure to liquidity risk as at 30th June, 2025 was:

Long Term interest bearing loans

In Taka	Note	Carrying Amount	Total	Contractual Cash Flows				
				2 months or less	2-12 months	1-5 years	More than 5 years

58.02.3 Market Risk

Market risk is the risk that any change in market price, such as foreign exchange rates and interest rates will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters.

(i) Interest Rate Risk

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. Exposure to fair value movement relates to fixed rate instrument subject to fair value accounting and exposure to cash flow fluctuation relates to variable rate instruments. The company is primarily exposed to cash flow fluctuation arising from variable rate borrowings. The objective of interest rate management for the Navana CNG Ltd. and its subsidiaries is to reduce financial cost and ensure predictability.

(ii) Currency Risk

The company is exposed to currency risk on certain revenues and purchases such as revenue from foreign customers and import of raw material, machineries and equipment. Majority of the company's foreign currency transactions are denominated in USD and relate to procurement of raw materials, machineries and equipment from abroad.

59.00 Capital Management

Capital management refers to implementing policies and measures to maintain sufficient capital, assessing company's internal capital adequacy to ensure company's operation as a going concern. Capital consists of share capital, general reserve and revaluation reserve. All major investment and operational decisions with exposure to certain amount are evaluated and approved by the board. The board of directors monitors the level of dividends to ordinary shareholders.

60.00 Subsequent Events-Disclosures under IAS 10 "Events after Reporting Period"

The directors in the meeting held on 27th day of October, 2025 recommended 10% cash dividend for the general shareholders only excluding Sponsors & Directors whose name will be apperead in the Shareholders Registers on record date which is subject to Shareholders approval at the forthcoming 21th annual general meeting to be held on day of 29th December, 2025.

"Except the fact stated above, no circumstances have arisen since the balance sheet date which would require adjustments or disclosure in the financial statements or notes thereto.
